LEILA Portal
User Manual

Summary

1.   Home Page

The portal is public and for simple users is not required any authentication, the portal is reachable by the url:http://leila_url and in the following image there is the screenshot of LEILA Home page.

The home page of LEILA is composed of:

- Header (present on every page of the portal):
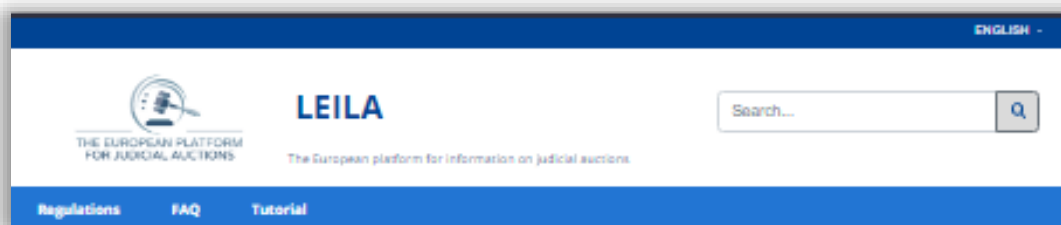

- Research section
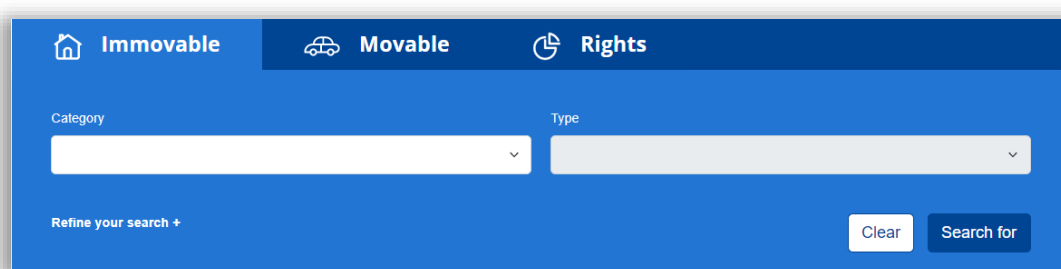

- News section
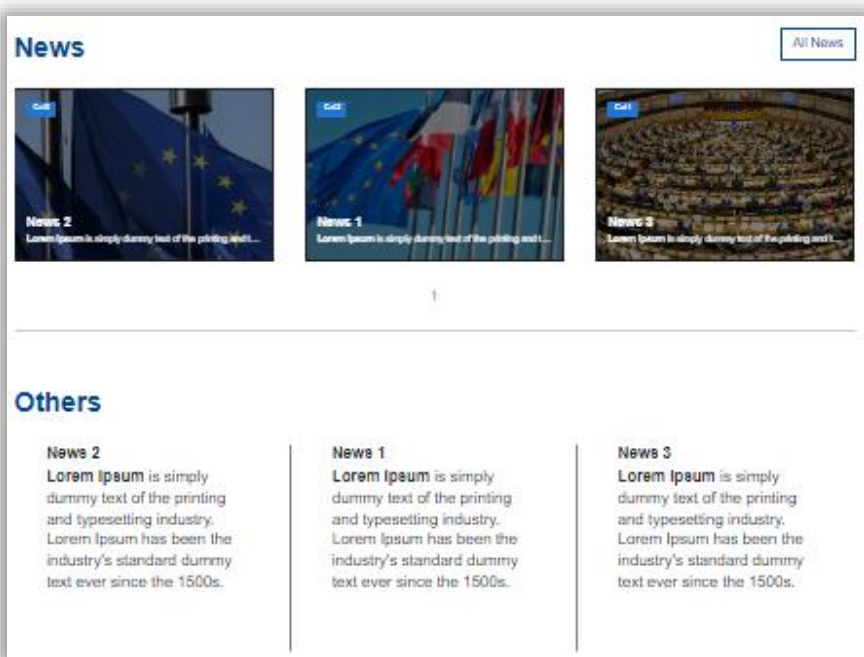

- Footer (present in each section of the portal):

2. Portal components and functionalities

2.1 Search Auctions

The search form of LEILA by default consists of two main filters: **Category** and **Type**, these filters are the same for each tab and in particular the Type is automatically populated according to the selected category.

By selecting "**Refine your search**" you can specialize the search adding new filter. Below there is the screenshot where you can see all filter for an Immovable asset:

Composition:

- **Macro categories section:** this section allows you to select a macro category for the search to be performed, for example, **Immovable is selected in the following figure:**

- **Category section** e **type** allows you to select the sub-categories:

- **Country of sale and country of location section** allows you to select the countries (since it is a multiple selection) by filtering the search by the countries publishing the judicial auctions (country of sale) and the countries where the judicial auctions are held (country of location):
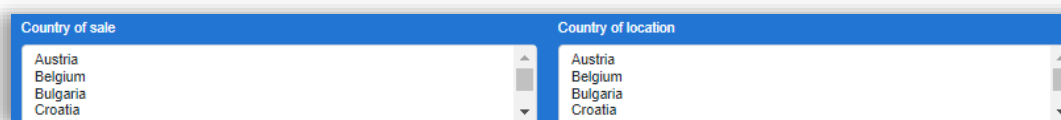

- **Deposit / currency / basic price from / to section** allows you to filter the search based on the minimum deposit / currency / basic price from / to:

- **Auction section:** allows you to add filters to your search by:
  - **Modality of the auction**
  - **Date of the judicial auction**
  - **Deadline for participation**
  - **Free text**

- **Clear / Search for:** they allow you to clear the current search or to execute it:

2.1.1 Results section

Once the search has been performed, you will be redirected to the following page (search for **Movables**):

Composition:

- In the left section we find all filters indicated above for the search from the home page;
- At the top of the results, we find the section for sorting and selecting the number of elements to display per page:

- **Exact results only**: if selected, it will perform the exact search, otherwise the search will be approximate. We will show the images in the next sections.

- The results will appear as follows:
  View with exact search:

  View without exact search, in this case you see that there is an alert message highlighted by yellow color "NO EXACT RESULT":

- Clicking "Go to the national portal" you are redirected to the specific Sales inside National Portal
- Results display mode on map: accessible through the button, 🌐 it will display the following screen:

Note: the filters section remains unchanged. As for the right section we have:

- Selection "choose location" you can filter the map for **sale location** or **asset location:**

- **Exact results only**: explained above, if this is not selected in the map you see all pin with approximate result and the color become yellow. Approximate results are retrieved considering just the main filter category and type.
- **Map**: the points where the **sale locations** or **asset locations are located will be displayed here** and, by selecting one of the points, the details can be seen as follows:

2.1.2 Judicial auction detail
